COMPUTER SCIENCE AND INFORMATION ENGINEERING DEPARTMENT

南臺科技大學
Southern Taiwan University of Science and Technology
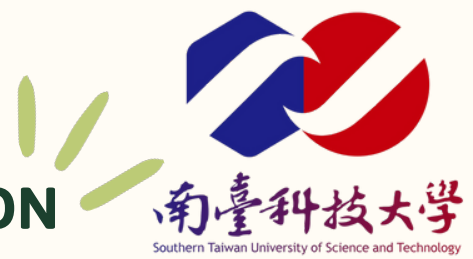

Since you are in the lead, you must be the best.

Educational Objectives

- Cultivating professional talent for the information-related industries
- Developing interdisciplinary and teamwork capabilities
- Nurturing industry awareness and self-directed learning qualities

Our department consistently undertakes a significant number of research and development projects each year, including grants from:

- National Science Council
- Other goverment program
- Industry-academia collaboration projects
- Demonstrating substantial R&D capacity

Teaching Staff

All faculty members hold doctoral degrees in fields related to computer science, electronics, and electrical engineering

- 5 professors
- 7 associate professors
- 8 assistant professors

The faculty members primarily focus on enhancing expertise in the following fields:

- Artificial Intelligence Applications
- Multimedia Applications
- Mobile Device Applications
- Cloud Computing
- Network Security
