

ELECTRICAL ENGINEERING DEPARTMENT

REGISTER
NOW!

1. EDUCATIONAL OBJECTIVES

Our goal is to train electrical engineers with expertise in both software and hardware integration

2. RESEARCH

We focus on advancing science and technology in three main research groups:

- Control and ICs
- Electrical Energy and Information
- Biomedical Electronics

3. CERTIFICATE TRAINING

- Solar Photovoltaic System Installation
- Power Electronics (Type B)
- Mechatronics (Type B, Type C)
- iPAS Electric Vehicle Mechatronics Engineer
- Electronics Compatibility Technician

4. PROGRAMS AVAILABLE FOR INTERNATIONAL STUDENTS

- 4-year Bachelor's & 2-year Master's Degree
- 1+4-year Industrial Preparation Program (IFP) & 2+2-year INTENSE Program

5. CAREER PROSPECTS

We collaborate with leading companies such as Taiwan Material Application, ChipMOS Technologies, Delta Electronics, Innolux, TSMC, and Wistron. We prepare students with the essential skills needed for their future careers and maintain close partnerships across various industries, particularly at the Southern Taiwan Science Park, providing abundant internship and employment opportunities.
